

SkyRise™ Wall System

Stability, Strength and Flexibility

Functional, Flexible, with Architectural Impact

SkyRise™ Wall System

Strength and Stability

3" thick aluminum frame with welded corners provide a rigid panel construction. Panels connect quickly and easily with tool-less installation.

Flexibility

One exhibit gives you many looks to meet your changing needs. Save money by reconfiguring the exhibit using the same panels for a different structure. Combine with other Skyline structural systems and accessories to give you the functionality you need.

Architectural Impact

Build large walls and enclosures and outfit them with flexible panel options that include: semi-rigid panels, frosted windows and full printed panels that can completely hide the hardware. Integrated cabinets, monitor mounts, backlighting, shelving and more provide a cohesive look.

SkyRise™ combines with other Skyline structural systems to create a complete solution and customized environments of any size.

Reconfigurability

Reuse frame, panels and accessories in different configurations from show to show to fit your ever changing exhibit needs.

1 CONFERENCE ROOMS

Conference rooms allow you to conduct business off the busy show floor.

2 LARGE STRUCTURES

Build large walls or towers to increase presence.

3 PANEL OPTIONS

Precision cut rigid panels in white and gray or dye sub fabric panels that can completely hide the hardware.

4 FROSTED WINDOWS

Great for conference rooms where privacy is required while still maintaining an open feeling.

5 LIGHTING

Arm lighting highlights your products and services and double-sided back lighting grabs attention of attendees.

SHELVES AND CABINETS

6 Stylish integrated shelves and cabinets supply storage and work space.

7 MONITOR MOUNTS

Surface or flush mount monitors to communicate your messaging or product demonstrations.

8 LOCKABLE WOOD DOOR

Secure valuables in storage closets or conference rooms.

SkyRise™ Wall System

Tool-less cam lock connection makes installation quick and easy.

All panels can be installed and removed quickly and easily for wire management access.

Edge to edge fabric graphics make a huge impact and completely hide the structural hardware.

Reduce operating expenses using the specially designed SkyRise crate for durability and ease in packing and unpacking.
